

North Stainley C of E Primary School

Date: 19/05/23

Our School Vision

We are our school we have our roots and foundations in love.

Our school is us we will grow, blossom and flourish.

What a week! We have literally hit the ground running. On Monday we had some visitors in school working on due diligence for the LDLT, chatting to the children and learning about life in our school. In the afternoon, the Venerable Clive Mansell led our Collective Worship in Church. We marked Ascension Day, learning what this means to all Christians. On Tuesday Class Three hosted a cricket festival, the visiting teams were West Tanfield, Kirkby Malzeard and Fountains School. Back in school the children in Class Two have been learning all about plants and pollination in science and in DT they have been baking biscuits with honey, a very sticky experience for all!! Class One have also been busy with DT, learning all sorts of knowledge and skills when planning to make a fruit salad; peeling, chopping and of course eating! Read on to see and hear what the children thought of this action packed week!!

LDLT updates: Just to keep everyone updated with the academisation process, We have undergone due diligence in a number of areas and all seems to be running smoothly, However, we have run into a delay, in so far as the DFE Advisory Board have delayed their approval of a number of proposed MATS until their June board. This will delay our conversion date which will now most likely be October 1st 2023

Purple Ribbon:

This week goes to Mia, Sammy, William, Esme S, Daisy, Florence and Olive. Please take a look at the class pages on the website to find out why these children were celebrated this week.

Purple Ribbons awarded weekly.

White ribbons awarded for something extra special

Thank you for asking...

One of the questions that arose from the due diligence meeting this week was that parents are not always sure what subjects their children are learning in school. Please go to the class pages on the website and click on the curriculum tab, here you will find links to all of your children's learning this term. But please don't hesitate popping into ask if you are still unsure.

Diary Dates

- May 22nd - KS1 SATS Week
- May 22nd - Cross Country Trip - Newby Hall (Years 3,4,5,6)
- 23rd May - New Starter Taster Afternoon (PE)

- 11th July - New Starter Taster Day (PE)
- 18th July - New Starter Taster Day (KS2 Production)

Unfortunately the Thursday All-Stars Cricket event for the whole school had to be postponed as the Yorkshire Cricket Coach was unable to attend due to illness. We will let you know when we have a new date for this.

Well-School Partnership Cricket Festival, May 2023

The Year 5 and 6s this week represented the school really well at the cricket tournament with some other local schools. Throughout the day our skills improved significantly and we all thoroughly enjoyed it.

Charlie Grayshon: I liked to bat and try to hit the ball. The best bit for me was when I hit three sixes in a row!

Charlie Goldstraw: I liked it when I hit a six and it went into the goal.

Bailey: I liked batting and bowling especially when I was able to do overarm. I also got four fours in a row.

William: At the start I wasn't doing too well but as we kept playing I started to gradually get better and I think everyone played well.

Archie: I liked today because it helped me get better at fielding and batting. I enjoyed bowling the most because I learnt so much more.

George: Thank you for a beautiful day. I loved it.

Jasmine: I was so tired at the end of the fun day.

Arran: It was really fun even though at first I didn't feel very confident with the rules.

*JAM
Jesus and Me
(May 2023)*

*Class 1 Fruit salad making in DT.
Thank you to Natasha and Mrs Fawcett who came along to give a helping hand.*

Class 2

Linking the curriculum, learning about Plants in Science and Honey Biscuit making in DT.
